### **Residential Elevator Sales & Installation**

Applied Elevator offers a wide range of residential elevators/home elevators, wheelchair lifts, and stair lift options specifically customized to meet your needs. We have the knowledge and experience to recommend the right elevator or lift for your home. Applied Elevator represents the absolute best elevator and lift manufacturers in the industry.

### **Your Residential Elevator Specialists**

When it comes to customer service, Applied Elevator is intensely focused on always exceeding your expectations by offering honest and dependable service, unparalleled customer service, and the best maintenance programs available. Applied Elevator was founded with the passion to make a difference in the elevator service industry by providing the highest level of customer service. Our goal is to create the absolute best customer service standards and provide trouble-free performance of your equipment.

At Applied Elevator, safety is our top priority. In addition to providing the highest quality elevator service, we also conduct comprehensive background checks, including drug testing, on all of our employees. We do this to ensure that our employees have the highest standards of honesty, integrity, and safety practices.

Applied Elevator also provides maintenance and repairs for your home elevator, wheelchair lifts, and stair lifts.

## **A New Standard of Luxury and Convenience In Your Home**

Enjoy the long-lasting convenience and luxurious style that a residential elevator adds to your new or existing home. Residential elevators provide a quiet and comfortable means of transportation for moving people and items such as groceries, luggage and furniture. The addition of a home elevator brings more than just prestige and elegance; it can also increase the value of your home.

Applied Elevator experts are dedicated to providing our clients with the best home elevators manufactured in the industry with proven track records for safety and reliability.

### **Stairway Chair Lift/ Stair Lift**

The installation of a custom stairway chair lift/stair lift allows for better access and independence throughout your home. A custom stair lift removes concerns and physical challenges posed by stairs.

### **Wheelchair Lifts**

Wheelchair lifts overcome architectural barriers and provide access for anyone who is physically challenged. A popular option to less aesthetically pleasing ramps, several types of handicap access lifts offer a cost-effective and space-efficient way to comply with the Americans with Disabilities Act (ADA).

Vertical lifts are designed and built to national standards (American Society of Mechanical Engineers); vertical lifts work inside or outside — freestanding, in a hoist way or completely concealed. With several models, different platform sizes, and various configurations for exiting/entering, we can tailor the lift to your particular situation. A selection of gates, doors and finish colors lets you choose how to most-pleasantly blend the lift into its environment.

Once installed, lifts are easy to operate using convenient call/send controls or an optional power door feature. All lifts installed by Applied Elevator are of the highest quality. We carefully select the best products available from manufacturers with decades of experience and a superior safety commitment. Each lift is backed by a dependable equipment warranty and professional 24-hour service.
